

Split-System A2M Interfaces

The City Multi systems use advanced communication protocol called M-NET. The Split-Systems can be interfaced to M-NET, allowing compatibility with the main centralised controller (G50, AG150, GB50, TG2000). An A2M adapter would be required per outdoor unit for Mr Slim and per indoor unit for Mr Slim S Series or M Series indoor units.

Technical Information

SPLIT-SYSTEM A2M INTERFACES		
FUNCTION	PAC-SF80MA	MAC-3991F
COMPATIBILITY	Mr Slim Outdoor Unit	Mr Slim S Series / M Series Indoor Unit
CONNECTION TO	Outdoor Unit	Indoor Unit
MNET SETTINGS	Rotary Switches	Dip Switches
DIMENSIONS - mm (WxDxH)	130x15x90	160x55x70
